

# Trainee (m/f) for Finance and Controlling

**You've got talent. We offer careers.**

**CAReer – The Top Talent Program.**

You've already achieved a lot – that's a good start.

Now is the ideal time to kick-start your long-term career with Mercedes-Benz, with CAReer, our international trainee program.

You spend 18 months working on challenging project assignments in different divisions and departments – worldwide – while already benefiting from a permanent contract of employment.

Right from the start you take on responsibility, get to know the structures, strategies and products within our company and establish valuable contacts.

## **Your tasks:**

- Where we make sure the numbers add up. You'll work on complex decision-making processes and ensure our management teams get the key information they need to successfully run the business. You'll ensure that we achieve the specified operational targets for EBIT, value added and cash flow. You will have a key role in the financial reporting according to the international and local standards. You'll be able to analyse and explain all main deviations and effects in the financial package to the management as well to the auditors.

## **Your responsibilities include:**

- You will belong to the financial department, which is responsible for cost and revenue controlling. Your task is to prepare and analyse complex and decision-relevant issues in context of creating management reporting
- You will also develop or enhance business concepts and processes such as accounting processes, cooperation models, management tools and target-setting methods

## **We expect from you:**

- A recognized higher education degree (ideally a Masters degree)
- First professional work experience (at least 18 months is mandatory for Bachelors degree)
- Excellent study results
- Several months of solid experience abroad
- Excellent English and German skills as well as a strong command of the language spoken at the location you are applying to
- You convince us with your personality and enjoy the management responsibility

## **Your profile:**

- You have completed or are about to complete a degree in business & economics, business

informatics, or industrial engineering

- A major in controlling, finance, accounting, tax, or planning/ reporting is preferred
- Preferably you have an internship at industrial companies
- Knowledge of SAP/R3 or SAP BI is preferred

**Location:**

6000 Kecskemét, Mercedes út 1. Hungary.

**How to Apply?**

Please apply with your complete application documents and your CV in English and German by May 15th, 2016.
